Virginia Transport, LLC is a small business HUBZone freight and fuel broker working as a prime contractor to the U.S. Government as well as a Tier 2 subcontractor with prime defense, construction, and fuel contractors. We are responsible for the integration of all logistics support functions including planning, risk, rigging, transportation, warehousing, crating, and more for both public and private industry leaders. We have direct access to the DoD's GFM and CAS systems for bidding and security clearance access to military installations and DLA sites throughout the United States. Our team's experience and diligence ensure that our government and private clients receive exemplary customer service, support, and professionalism.
